

TO SHIP ORANGES  
VIA SALT LAKEBeginning of Season for Southern  
California Is at Hand.

## NEW ROAD SHORTEST EAST

CLARK LINE EXPECTS TO GET  
BIG SHARE OF ORDERS.

Los Angeles, Oct. 31.—With the opening of the orange shipping season next Wednesday, the growers of southern California are convinced they will begin the greatest year in the history of the industry in this state.

The total shipments last season to last Saturday were 29,345 carloads, of which, 4,250 carloads were lemons, a total of 24,395 carloads of oranges from southern California alone. The total amount of money involved was \$23,576,000, the principal items making up the sum total being as follows:

For the railroads, \$9,550,000; refrigeration, car lines, \$10,000; growers and shippers, \$13,900,000.

The prices were better than for the past two seasons previous, but somewhat under those realized three and four years ago. This season's yield for oranges, it is expected, will be in excess of last year's.

The orange shipping season about to begin will be the first in which the Salt Lake Route will figure with the Southern Pacific and Santa Fe as a competing road. As outlined previously, the Salt Lake Route, shortening the distance appreciably between Los Angeles and eastern markets, will probably bring a large share of California's output through this city.

Statements made by Salt Lake Route officials indicate their confidence in the ability of the road to capture orders from hundreds of southern California shippers. The oranges of central California will, of course, not be affected by the new road.

## MURDER AND ROBBERY

Body of a Pioneer Justice and His  
Wife Found by Roadside in  
California.

Fresno, Cal., Oct. 31.—Three miles east of Jamestown this afternoon the mutilated bodies of W. J. Hayes, a pioneer justice of the peace of this county, and his wife were found dead by the roadside. Hayes was evidently getting supper in his camp, which was made beside the road last night, when the trouble occurred that ended in his death and the death of his wife. Hayes was shot through the back at close range by a shotgun and a terrible blow over the head with a three-cornered instrument. His body was stretched face downward across a shotgun, which had not been discharged. A few feet away his wife was dead from a blow on the head similar to the one inflicted upon Hayes. There was a shotgun found in the brush a short distance from the camp. The old man's pockets were turned over and nothing was found. It is believed some one came to the camp with the intention of robbing Hayes, and that Hayes resisted.

PROBABLE MURDERER  
OF EDITOR THOMPSON

New York, Oct. 31.—Richard Hannibal, a negro, died at Roosevelt hospital today, and according to the police circumstantial evidence connects him with the murder of Jacob H. Thompson, an editor on the New York Times, who was killed in his room in the St. James hotel several weeks ago. Hannibal was a bell boy at the St. James. On Oct. 25 his throat was cut in a quarrel with a negro woman and he was removed to the hospital. He made no confession. The bell boy had been under surveillance since the Thompson murder, but nothing developed to warrant his arrest. Jacob H. Thompson lived alone at the St. James hotel. Rewards offered by New York newspapers for the arrest of his murderer failed to clear the case.

## WHOLE FAMILY KILLED.

Bellare, O., Oct. 31.—Sylvester Kendall, aged 32, his wife and seven children, were killed by a runaway stage in the Males and Johnsons' mine near here today, and instantly killed.

Peterman's Roach Food  
A BOON TO HOUSEKEEPERS.

The most improved method to free a house of large or small roaches is to use the contents of a box of "Peterman's Roach Food" at one time. Shake it on joints so some of it will penetrate and remain to keep the premises continuously free. Roaches eat it as a food; it is the most destructive remedy on this earth to them and it will not scatter them to other places to live on and multiply.

## REDBUGS—"Peterman's Discovery"

(thick, a cream, is) quicksilver to kill bedbugs, apply lightly with brush on beds when apart, and on pictures, frames, moldings, etc. It will remain permanent, and is the only remedy that they absorb and kill those that go over where it has been lightly brushed on. It will not rust, harm furniture or bedding.

"Peterman's Discovery" is in flexible cans, handy to force in joints for quick application, will kill bedbugs and their eggs instantly. The enormous sale of above remedies enables the price being made so that the rich and poor alike can afford to use them.
